NOTE 1 — SIGNIFICANT ACCOUNTING POLICIES*Principles of Consolidation*

As used in this report, the term “Company,” except as otherwise indicated by the context, means Lincoln Electric Holdings, Inc. and its wholly-owned and majority-owned subsidiaries for which it has a controlling interest.

The consolidated financial statements include the accounts of all legal entities in which the Company holds a controlling interest. The Company is also considered to have a controlling interest in a variable interest entity (“VIE”) if the Company determines it is the primary beneficiary of the VIE. Investments in legal entities in which the Company does not own a majority interest but has the ability to exercise significant influence over operating and financial policies are accounted for using the equity method.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these unaudited consolidated financial statements do not include all of the information and notes required by GAAP for complete financial statements. However, in the opinion of management, these unaudited consolidated financial statements contain all the adjustments (consisting of normal recurring accruals) considered necessary to present fairly the financial position, results of operations and cash flows for the interim periods. Operating results for the six months ended June 30, 2018 are not necessarily indicative of the results to be expected for the year ending December 31, 2018.

The accompanying Consolidated Balance Sheet at December 31, 2017 has been derived from the audited financial statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. For further information, refer to the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Certain reclassifications have been made to the prior year financial statements to conform to current year classifications.

New Accounting Pronouncements:

This section provides a description of new accounting pronouncements (“Accounting Standard Update” or “ASU”) issued by the Financial Accounting Standards Board (“FASB”) that are applicable to the Company.

The following ASUs were adopted as of January 1, 2018 and did not have a significant financial impact on the Company’s consolidated financial statements unless otherwise described within the table below:

Standard	Description
ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities, issued August 2017.	ASU 2017-12 provides updated guidance to more closely align hedge accounting with a company’s risk management strategy, to simplify the application of hedge accounting and to better portray the economic results of hedging instruments in the financial statements. The Company early adopted the ASU on January 1, 2018.
ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Period Pension Cost and Net Periodic Postretirement Benefit Cost, issued March 2017.	ASU 2017-07 requires an entity to report the service cost component of the net periodic benefit cost in the same income statement line item as other employee compensation costs. The other components of the net periodic benefit cost are required to be presented in the income statement separately from the service cost component and outside of any subtotal of operating income. Additionally, only the service cost component will be eligible for capitalization in assets. The impact of the adoption resulted in the reclassification of the other components of net periodic benefit cost from Cost of goods sold and Selling, general & administrative expenses to Other periodic pension income. The reclassification resulted in a decrease in Operating income of \$2,069 as a result of an increase in Cost of goods sold of \$1,177 and an increase in Selling, general & administrative expenses of \$892 for the three months ended June 30, 2017. The reclassification resulted in a decrease in Operating income of \$4,148 as a result of an increase in Cost of goods sold of \$2,370 and an increase in Selling, general & administrative expenses of \$1,778 for the six months ended June 30, 2017. Refer to Note 12 to the consolidated financial statements for details.

Standard	Description
ASU No. 2017-01, <i>Business Combinations (Topic 805): Clarifying the Definition of a Business</i> , issued January 2017.	ASU 2017-01 provides updated guidance for evaluating whether certain transactions should be accounted for as an acquisition (or disposal) of an asset or a business.
ASU No. 2016-18, <i>Statement of Cash Flows (Topic 230): Restricted Cash</i> , issued November 2016.	ASU 2016-18 requires amounts generally described as restricted cash and restricted cash equivalents be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows.
ASU No. 2016-16, <i>Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory</i> , issued October 2016.	ASU 2016-16 requires an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs.
ASU 2016-15, <i>Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments</i> , issued August 2016.	ASU 2016-15 reduces existing diversity in practice by addressing eight specific cash flow issues related to how certain cash receipts and cash payments are presented and classified in the statement of cash flows.
ASU 2014-09, <i>Revenue from Contracts with Customers (Topic 606)</i> issued May 2014 and ASU 2015-14, <i>Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date</i> , issued August 2015.	ASU 2014-09 requires an entity to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard also specifies the accounting of some costs to obtain or fulfill a contract with a customer and expands the disclosure requirements around contracts with customers. ASU 2015-14 deferred the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017, and interim periods within those fiscal years. The Company adopted ASU 2014-09 as of January 1, 2018 using the modified retrospective transition method applied to those contracts that were not completed as of that date. The adoption did not have a material impact on the consolidated financial statements. Refer to Note 2 to the consolidated financial statements for further details.

The Company is currently evaluating the impact on its financial statements of the following ASUs:

Standard	Description
ASU No. 2018-02, <i>Income Statement - Reporting Comprehensive Income (Topic 220)</i> , issued February 2018.	ASU 2018-02 allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the U.S. Tax Act (as defined within Note 14 to the consolidated financial statements). The ASU only applies to the income tax effects of the U.S. Tax Act, all other existing guidance remains the same. The ASU is effective January 1, 2019, early adoption is permitted and the ASU should be applied retrospectively to each period impacted by the U.S. Tax Act.
ASU No. 2016-02, <i>Leases (Topic 842)</i> , issued February 2016 and ASU 2018-10, <i>Codification Improvements to Topic 842, Leases</i> , issued July 2018.	ASU 2016-02 aims to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and requiring disclosure of key information about leasing agreements. ASU 2018-10 provides narrow amendments to clarify how to apply certain aspects of the new lease standard. Entities are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The modified retrospective approach includes a number of optional practical expedients that entities may elect to apply. The ASU is effective January 1, 2019 and early adoption is permitted.

The Company has established a cross-functional team to implement the ASU and is in the process of determining the scope of impact and use of practical expedients, gathering data on all leases and designing a new system solution. The Company is also evaluating its processes and internal controls to meet the ASU's accounting, reporting and disclosure requirements. While the Company has not yet completed its evaluation of the ASU's impact, the Company expects to recognize a right of use asset and a corresponding liability on the Consolidated Balance Sheets related to substantially all operating lease arrangements.

NOTE 2 — REVENUE RECOGNITIONAdoption of ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)"

On January 1, 2018, the Company adopted ASU 2014-09 ("Topic 606") using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting. The cumulative impact of adopting Topic 606 as of January 1, 2018 did not have a material impact to the consolidated financial statements. The Company does not expect the impact of the adoption of Topic 606 to be material to the consolidated financial statements on an ongoing basis.

Revenue Recognition

Revenue is recognized when obligations under the terms of a contract are satisfied and control is transferred to the customer. Revenue is measured as the amount of consideration the Company expects to be entitled to in exchange for goods or services. The Company recognizes any discounts, credits, returns, rebates and incentive programs based on reasonable estimates as a reduction of sales to arrive at Net sales at the same time the related revenue is recorded. Taxes collected by the Company, including sales tax and value add tax, are excluded from Net sales. The Company recognizes freight billed as a component of Net sales and shipping costs as a component of Cost of goods sold when control transfers to the customer. Sales commissions are expensed when incurred because the amortization period is generally one year or less. These costs are recorded within Selling, general and administrative expenses in the Company's Consolidated Statements of Income.

The Company's payment terms vary by the type and location of the customer and the products or services offered. The Company does not offer any payment terms that would meet the requirements for consideration as a financing component under Topic 606.

The following table presents the Company's Net sales disaggregated by product line:

	Three Months Ended June 30, 2018	Six Months Ended June 30, 2018
Consumables	\$ 461,040	\$ 902,931
Equipment	329,012	644,817
Net sales	<u>\$ 790,052</u>	<u>\$ 1,547,748</u>

Consumable sales consist of electrodes, fluxes, specialty welding consumables and brazing and soldering alloys. Equipment sales consist of arc welding power sources, welding accessories, fabrication, plasma cutters, wire feeding systems, robotic welding packages, integrated automation systems, fume extraction equipment, CNC plasma and oxy-fuel cutting systems and regulators and torches used in oxy-fuel welding, cutting and brazing. Consumable and Equipment products are sold within each of the Company's operating segments.

Substantially all of the Company's sales arrangements are short-term in nature involving a single performance obligation. The Company recognizes revenue when control of the product is transferred to the customer based upon shipping terms.

Within the Equipment product line, there are certain customer contracts related to automation products that may include multiple performance obligations. For such arrangements, the Company allocates revenue to each performance obligation based on its relative standalone selling price. The Company generally determines the standalone selling price based on the prices charged to customers or using expected cost plus margin. In addition, for certain customized automation deliverables within the Equipment product line, there are contracts accounted for over time. Under this method, revenue recognition is primarily based upon the ratio of costs incurred to date compared with estimated total costs to complete. The cumulative impact of revisions to total estimated costs is reflected in the period of the change, including anticipated losses. Less than 10% of the Company's Net sales are recognized over time.

At June 30, 2018, the Company recorded \$16,247 related to advance customer payments and \$14,418 related to billings in excess of revenue recognized. These contract liabilities are included in Other current liabilities in the Condensed Consolidated Balance Sheets. At January 1, 2018, the balances related to advance customer payments and billings in excess of revenue recognized were \$19,683 and \$11,132, respectively. Substantially all of the Company's contract liabilities are recognized within twelve months based on contract duration. The Company records an asset for contracts where it has recognized revenue, but has not yet invoiced the customer for goods or services. At June 30, 2018 and January 1, 2018, \$32,262 and \$22,229, respectively, related to these future customer receivables was included in Other current assets in the Condensed Consolidated Balance Sheets. Contract asset amounts are expected to be billed within the next twelve months.

Diluted earnings per share	\$ 1.04	\$ 0.92	\$ 1.96	\$ 1.76

For the three months ended June 30, 2018 and 2017, common shares subject to equity-based awards of 346,168 and 179,178, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive. For the six months ended June 30, 2018 and 2017, common shares subject to equity-based awards of 303,207 and 133,748, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive.

NOTE 4 — ACQUISITIONS

On July 31, 2017, the Company completed its acquisition of Air Liquide Welding, a subsidiary of Air Liquide. The agreed upon purchase price was \$135,123, which was adjusted for certain debt like obligations, for a net purchase price of \$61,953, net of cash acquired. The primary debt like obligations were pension liabilities. The acquisition was accounted for as a business combination. The funding of the cash portion of the purchase price and acquisition costs was provided for with available cash.

The complementary business enhanced the Company's global specialty consumables portfolio and extended its channel reach for equipment systems and cutting, soldering and brazing solutions in Europe. The acquisition also offers European customers more comprehensive welding solutions, greater technical application expertise and improved service levels.

The fair value of the net assets acquired exceeded the purchase consideration by \$49,650, resulting in a bargain purchase gain at acquisition, which was included in Bargain purchase gain in the Company's Consolidated Statements of Income for the year ended December 31, 2017. The Company believes that the bargain purchase gain was primarily the result of the divestiture by Air Liquide of the welding business, which was outside Air Liquide's core business, as part of an overall repositioning of its core business. The Company anticipates future integration initiatives are necessary in order to achieve commercial and operational synergies. The assets and liabilities assumed and presented in the table below are based on available information and may be revised during the measurement period, not to exceed 12 months from the acquisition date, if additional information becomes available.

The following table summarizes the purchase price allocation for the Air Liquide Welding acquisition:

Assets acquired and liabilities assumed	As of July 31, 2017
Accounts receivable	\$ 89,442
Inventory ⁽¹⁾	97,803
Property, plant and equipment ⁽²⁾	73,056
Intangible assets ⁽³⁾	11,715
Accounts payable	(65,640)
Pension liability	(67,563)
Bargain purchase gain	(49,650)
Net other assets and liabilities ⁽⁴⁾	(27,210)
Total purchase price, net of cash acquired ⁽⁵⁾	\$ 61,953

- (1) Inventories acquired were sold in 2017 resulting in a \$4,578 increase in Cost of goods sold for the year ended December 31, 2017 related to the amortization of step up in the value of acquired inventories.
- (2) Property, plant and equipment acquired includes a number of manufacturing and distribution sites, including the related facilities, land and leased sites, and machinery and equipment for use in manufacturing operations.
- (3) \$7,099 of the intangible asset balance was assigned to a trade name expected to have an indefinite life. Of the remaining amount, \$1,183 was assigned to a finite-lived trade name (10 year weighted average useful life) and \$3,433 was assigned to other intangible assets (9 year weighted average life).
- (4) Consists primarily of other accrued liabilities.
- (5) Reflects a receivable from seller for an agreed upon purchase price adjustment. The payment of \$10,983 was received in the first quarter of 2018.

In the three and six months ended June 30, 2018, the Company recognized \$788 and \$2,695, respectively, in acquisition transaction and integration costs related to the acquisition of Air Liquide Welding. In the three and six months ended June 30, 2017, the Company recognized \$4,498 and \$8,113, respectively, in acquisition transaction and integration costs related to the acquisition of Air Liquide Welding. Such costs were expensed as incurred and are included in Selling, general & administrative expenses in the Company's Consolidated Statements of Income.

In 2016, the Air Liquide Welding businesses generated sales of approximately \$400 million. Beginning August 1, 2017, the Company's Consolidated Statements of Income include the results of the Air Liquide Welding businesses, including sales revenue of \$207 million for the six months ended June 30, 2018.

Pro forma information related to this acquisition has not been presented because the impact on the Company's Consolidated Statements of Income is not material. Acquired companies are included in the Company's consolidated financial statements as of the date of acquisition.

NOTE 5 — SEGMENT INFORMATION

The Company's business units are aligned into three operating segments. The operating segments consist of Americas Welding, International Welding and The Harris Products Group. The Americas Welding segment includes welding operations in North and South America. The International Welding segment includes welding operations in Europe, Africa, Asia and Australia. The Harris Products Group includes the Company's global cutting, soldering and brazing businesses as well as its retail business in the United States.

Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being adjusted earnings before interest and income taxes ("Adjusted EBIT"). EBIT is defined as Operating income plus Other income (expense). EBIT is adjusted for special items as determined by management such as the impact of rationalization activities, certain asset impairment charges and gains or losses on disposals of assets.

NOTE 6 — RATIONALIZATION AND ASSET IMPAIRMENTS

The Company recorded rationalization and asset impairment net charges of \$21,717 in the six months ended June 30, 2018. The 2018 charges are primarily related to employee severance, asset impairments and other costs. A description of the Company's restructuring plans and the related costs is as follows:

During 2018, the Company initiated rationalization plans within International Welding. The plans include headcount restructuring and the consolidation of manufacturing operations to better align the cost structures with economic conditions and operating needs. At June 30, 2018, liabilities of \$14,043 were recognized in Other current liabilities in the Company's Condensed Consolidated Balance Sheet.

During 2017, the Company initiated rationalization plans within International Welding. The plans includes headcount restructuring and the consolidation of manufacturing operations to better align the cost structures with economic conditions and operating needs. At June 30, 2018, liabilities of \$246 were recognized in Other current liabilities in the Company's Condensed Consolidated Balance Sheet.

As of June 30, 2018, the Company expects additional charges of approximately \$5,000 to be recorded related to the completion of the International Welding plans.

The Company believes the rationalization actions will positively impact future results of operations and will not have a material effect on liquidity and sources and uses of capital. The Company continues to evaluate its cost structure and additional rationalization actions may result in charges in future periods. The following table summarizes the activity related to the rationalization liabilities in the International Welding segment:

NOTE 8 — INVENTORY

Inventories in the Condensed Consolidated Balance Sheet is comprised of the following components:

	June 30, 2018	December 31, 2017
Raw materials	\$ 106,464	\$ 97,577
Work-in-process	52,827	50,695
Finished goods	206,343	200,395
Total	\$ 365,634	\$ 348,667

At June 30, 2018 and December 31, 2017, approximately 37% and 32% of total inventories were valued using the last-in, first out ("LIFO") method, respectively. The excess of current cost over LIFO cost was \$74,814 at June 30, 2018 and \$68,641 at December 31, 2017.

NOTE 9 — CONTINGENCIES

The Company, like other manufacturers, is subject from time to time to a variety of civil and administrative proceedings arising in the ordinary course of business. Such claims and litigation include, without limitation, product liability claims, regulatory claims, employment-related claims and health, safety and environmental claims, some of which relate to cases alleging asbestos induced illnesses. The claimants in the asbestos cases seek compensatory and punitive damages, in most cases for unspecified amounts. The Company believes it has meritorious defenses to these claims and intends to contest such suits vigorously.

The Company accrues its best estimate of the probable costs, after a review of the facts with management and counsel and taking into account past experience. For claims or litigation that are material, if an unfavorable outcome is determined to be reasonably possible and the amount of loss can be reasonably estimated, or if an unfavorable outcome is determined to be probable and the amount of loss cannot be reasonably estimated, disclosure would be provided. Many of the current cases are in differing procedural stages and information on the circumstances of each claimant, which forms the basis for judgments as to the validity or ultimate disposition of such actions, varies greatly. Therefore, in many situations a range of possible losses cannot be made. Reserves are adjusted as facts and circumstances change and related management assessments of the underlying merits and the likelihood of outcomes change. Moreover, reserves only cover identified and/or asserted claims. Future claims could, therefore, give rise to increases to such reserves.

Based on the Company's historical experience in litigating product liability claims, including a significant number of dismissals, summary judgments and defense verdicts in many cases and immaterial settlement amounts, as well as the Company's current assessment of the underlying merits of the claims and applicable insurance, the Company believes resolution of these claims and proceedings, individually or in the aggregate, will not have a material effect on the Company's consolidated financial statements.

NOTE 11 — DEBT

Revolving Credit Agreement

The Company has a line of credit totaling \$400,000 through the Amended and Restated Credit Agreement (the “Credit Agreement”). The Credit Agreement has a five-year term and may be increased, subject to certain conditions, by an additional amount up to \$100,000. The interest rate on borrowings is based on either the London Inter-Bank Offered Rate (“LIBOR”) or the prime rate, plus a spread based on the Company’s leverage ratio, at the Company’s election. The Company amended and restated the Credit Agreement on June 30, 2017, extending the maturity of the line of credit to June 30, 2022. The Credit Agreement contains customary affirmative, negative and financial covenants for credit facilities of this type, including limitations on the Company and its subsidiaries with respect to liens, investments, distributions, mergers and acquisitions, dispositions of assets, transactions with affiliates and a fixed charges coverage ratio and total leverage ratio. As of June 30, 2018, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement.

Senior Unsecured Notes

On April 1, 2015 and October 20, 2016, the Company entered into separate Note Purchase Agreements pursuant to which it issued senior unsecured notes (the “Notes”) through a private placement. The 2015 Notes and 2016 Notes each have an aggregate principal amount of \$350,000, comprised of four different series ranging from \$50,000 to \$100,000, with maturity dates ranging from August 20, 2025 through April 1, 2045, and interest rates ranging from 2.75% and 4.02%. Interest on the Notes is paid semi-annually. The Company’s total weighted average effective interest rate and weighted average initial tenure of the Notes is 3.3% and 18 years, respectively. The proceeds of the Notes were used for general corporate purposes. The Notes contain certain affirmative and negative covenants. As of June 30, 2018, the Company was in compliance with all of its debt covenants relating to the Notes.

NOTE 14 — INCOME TAXES

The Company recognized \$48,782 of tax expense on pretax income of \$178,461, resulting in an effective income tax rate of 27.3% for the six months ended June 30, 2018. The effective income tax rate was 27.6% for the six months ended June 30, 2017.

The U.S. Tax Cuts and Jobs Act (the "U.S. Tax Act") was enacted on December 22, 2017. The SEC staff issued Staff Accounting Bulletin No. 118 ("SAB 118"), which provides for a one-year measurement period and provides guidance for the application of ASC Topic 740, *Income Taxes*. The Company recognized the income tax effects of the U.S. Tax Act to the extent applicable for 2017, the year of enactment. The provisional expense recognized in 2017 primarily related to taxes on the Company's unremitted foreign earnings, partially offset by the re-measurement of deferred tax assets and liabilities. The amounts recorded in 2017 were based on reasonable estimates at that time.

In the first quarter of 2018, the Department of Treasury and Internal Revenue Service issued Treasury Notice 2018-13. Notice 2018-13 requires the use of the spot exchange rate, instead of the average annual exchange rate, to value unremitted foreign earnings as of December 31, 2017. Based on this new guidance, in the first quarter of 2018 the Company increased the amount recorded in 2017 related to taxes on unremitted foreign earnings by \$2,500. No other changes to provisional amounts were recorded in the second quarter of 2018. The Company continues to gather additional information and will complete the accounting within the prescribed measurement period.

The decrease in the effective tax rate for the six months ended June 30, 2018, as compared with the same period in 2017, was primarily due to the U.S. Tax Act's reduction of the U.S. corporate income tax rate from 35 percent to 21 percent effective January 1, 2018. The rate decrease was partially offset by 2018 rationalization charges in regions with low or no tax benefit, the \$2,500 adjustment recorded in the first quarter 2018 as discussed above, as well as incremental tax expense related to the U.S. Tax Act recorded in 2018. The incremental tax expense is the result of the Global Intangible Low-Taxed Income ("GILTI") provisions of the U.S. Tax Act, partially offset by the Foreign-Derived Intangible Income ("FDII") provisions. The amount recorded is based on a reasonable estimate as of June 30, 2018. The Company has not determined its accounting policy with respect to GILTI and has therefore included the 2018 estimate as a period cost and included as part of the estimated annual effective tax rate. The Company is continuing to gather additional information to complete its analysis within the prescribed measurement period. The Company is also continuing to analyze applicability of the Base Erosion Anti-Abuse Tax ("BEAT") and the interest expense limitation during the prescribed period.

As of June 30, 2018, the Company had \$15,837 of unrecognized tax benefits. If recognized, approximately \$12,231 would be reflected as a component of income tax expense.

The Company files income tax returns in the U.S. and various state, local and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2013. The Company is currently subject to U.S., various state and non-U.S. income tax audits.

Unrecognized tax benefits are reviewed on an ongoing basis and are adjusted for changing facts and circumstances, including progress of tax audits and closing of statutes of limitations. Based on information currently available, management believes that additional audit activity could be completed and/or statutes of limitations may close relating to existing unrecognized tax benefits. It is reasonably possible there could be a reduction of \$1,973 in previously unrecognized tax benefits by the end of the second quarter 2019.

NOTE 15 — DERIVATIVES

The Company uses derivative instruments to manage exposures to currency exchange rates, interest rates and commodity prices arising in the normal course of business. Both at inception and on an ongoing basis, the derivative instruments that qualify for hedge accounting are assessed as to their effectiveness, when applicable. Hedge ineffectiveness was immaterial in the six months ended June 30, 2018 and 2017.

The Company is subject to the credit risk of the counterparties to derivative instruments. Counterparties include a number of major banks and financial institutions. None of the concentrations of risk with any individual counterparty was considered significant at June 30, 2018. The Company does not expect any counterparties to fail to meet their obligations.

Cash Flow Hedges

Certain foreign currency forward contracts were qualified and designated as cash flow hedges. The dollar equivalent gross notional amount of these short-term contracts was \$55,468 at June 30, 2018 and \$35,489 at December 31, 2017.

Fair Value Hedges

Certain interest rate swap agreements were qualified and designated as fair value hedges. At June 30, 2018, the Company had interest rate swap agreements outstanding that effectively convert notional amounts of \$125,000 of debt from a fixed interest rate to a variable interest rate based on three-month LIBOR plus a spread of between 0.5% and 1.8%. The variable rates reset every three months, at which time payment or receipt of interest will be settled.

Net Investment Hedges

The Company has foreign currency forward contracts that qualify and are designated as net investment hedges. The dollar equivalent gross notional amount of these short-term contracts was \$48,686 at June 30, 2018. The effective portions of the fair value gains or losses on these net investment hedges are recognized in AOCI and subsequently reclassified to Selling, general and administrative expenses, as the underlying hedged investment is liquidated.

Derivatives Not Designated as Hedging Instruments

The Company has certain foreign exchange forward contracts that are not designated as hedges. These derivatives are held as economic hedges of certain balance sheet exposures. The dollar equivalent gross notional amount of these contracts was \$317,311 at June 30, 2018 and \$340,884 at December 31, 2017.

Fair values of derivative instruments in the Company's Condensed Consolidated Balance Sheets follow:

Deferred compensation	25,397	—	25,397	—
Total liabilities	\$ 41,919	\$ —	\$ 34,833	\$ 7,086

The Company's derivative contracts are valued at fair value using the market approach. The Company measures the fair value of foreign exchange contracts, net investment contracts and interest rate swap agreements using Level 2 inputs based on observable spot and forward rates in active markets. During the six months ended June 30, 2018, there were no transfers between Levels 1, 2 or 3.

The Company measures the fair value of marketable securities using Level 2 inputs based on quoted market prices for similar assets in active markets.

In connection with acquisitions, the Company recorded contingent consideration liabilities, which will be paid based upon actual financial results of the acquired entity for specified future periods. The fair value of the contingent considerations are a Level 3 valuation and fair valued using either a probability weighted discounted cash flow analysis or an option pricing model.

The deferred compensation liability is the Company's obligation under its executive deferred compensation plan. The Company measures the fair value of the liability using the market values of the participants' underlying investment fund elections.

The fair value of Cash and cash equivalents, Accounts receivable, Short-term debt excluding the current portion of long-term debt and Trade accounts payable approximated book value due to the short-term nature of these instruments at both June 30, 2018 and December 31, 2017. The fair value of long-term debt at June 30, 2018 and December 31, 2017, including the current portion, was approximately \$638,829 and \$687,428, respectively, which was determined using available market information and methodologies requiring judgment. The carrying value of this debt at such dates was \$700,305 and \$704,247, respectively. Since considerable judgment is required in interpreting market information, the fair value of the debt is not necessarily the amount that could be realized in a current market exchange.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in thousands, except per share amounts)

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read together with the Company's unaudited consolidated financial statements and other financial information included elsewhere in this Quarterly Report on Form 10-Q.

General

The Company is the world's largest designer and manufacturer of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. Welding products include arc welding power sources, CNC and plasma cutters, wire feeding systems, robotic welding packages, integrated automation systems, fume extraction equipment, consumable electrodes, fluxes and welding accessories and specialty welding consumables and fabrication. The Company's product offering also includes oxy-fuel cutting systems and regulators and torches used in oxy-fuel welding, cutting and brazing. In addition, the Company has a leading global position in the brazing and soldering alloys market.

The Company's products are sold in both domestic and international markets. In the Americas, products are sold principally through industrial distributors, retailers and directly to users of welding products. Outside of the Americas, the Company has an international sales organization comprised of Company employees and agents who sell products from the Company's various manufacturing sites to distributors and product users.

The Company's business units are aligned into three operating segments. The operating segments consist of Americas Welding, International Welding and The Harris Products Group. The Americas Welding segment includes welding operations in North and South America. The International Welding segment includes welding operations in Europe, Africa, Asia and Australia. The Harris Products Group includes the Company's global cutting, soldering and brazing businesses as well as its retail business in the United States.

The U.S. Tax Cuts and Jobs Act (the "U.S. Tax Act") was enacted on December 22, 2017. The U.S. Tax Act represents major tax reform legislation that, among other provisions, reduces the U.S. corporate tax rate. The SEC staff issued Staff Accounting Bulletin No. 118 ("SAB 118"), which provides for a one-year measurement period and provides guidance for the application of ASC Topic 740, *Income Taxes*. In accordance with SAB 118, the Company recognized the income tax effects of U.S. Tax Act to the extent applicable for 2017, the year of enactment. The Company's financial results reflect provisional amounts for the impact of the U.S. Tax Act for which accounting analysis under ASC Topic 740 is ongoing. Refer to Note 14 to the consolidated financial statements for further information on the financial statement impact of the U.S. Tax Act.

% Change						
Lincoln Electric Holdings, Inc.		4.8%	17.1%	4.6%	1.7%	28.2%

Net sales increased in the three and six months ended June 30, 2018 primarily as a result of acquisitions, improved volume due to higher demand and increased product pricing. The increase in Net sales from acquisitions was driven by the acquisition of Air Liquide Welding within Americas Welding and International Welding.

Gross Profit:

Gross profit for the three and six months ended June 30, 2018 decreased, as a percent of sales, compared to the prior year due to the acquisition of Air Liquide Welding and rising input costs. The three and six months ended June 30, 2018 includes a last-in, first-out ("LIFO") charge of \$5,261 and \$6,173, respectively, as compared to with a LIFO charge of \$1,977 and \$3,659, respectively, in the three and six months ended June 30, 2017.

Selling, General & Administrative ("SG&A") Expenses:

The increase in SG&A expenses for the three months ended June 30, 2018 as compared to June 30, 2017 is due to higher expense from acquisitions and higher compensation costs, partially offset by lower acquisition transaction and integration costs.

The increase in SG&A expenses for the six months ended June 30, 2018 as compared to June 30, 2017 is due to higher expense from acquisitions, higher compensation costs and unfavorable foreign exchange, partially offset by lower acquisition transaction and integration costs.

Rationalization and Asset Impairment Charges:

The Company recorded net charges of \$11,542, \$10,362 after-tax, and \$21,717, \$18,232 after-tax, in the three and six months ended June 30, 2018, respectively, primarily related to employee severance and asset impairment charges.

Interest Expense, Net:

The decrease in Interest expense, net for the three and six months ended June 30, 2018 as compared to June 30, 2017 was due to higher interest income on marketable securities in 2018.

Other Income (Expense):

The increase in Other income (expense) for the three and six months ended June 30, 2018 as compared to June 30, 2017 was due to higher equity earnings in affiliates.

Income Taxes:

The effective tax rate was lower for the six months ended June 30, 2018 as compared to June 30, 2017 primarily due to the U.S. Tax Act's reduction of the U.S. corporate income tax rate. The rate decrease was partially offset by 2018 rationalization charges in regions with low or no tax benefit, as well as adjustments related to the U.S. Tax Act.

Net Income:

Net income for the three and six months ended June 30, 2018 increased as compared to the prior year periods primarily due to higher volumes partially offset by rising input costs and higher SG&A costs.

Adjusted Earnings Before Interest and Income Taxes:

Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being Adjusted EBIT. EBIT is defined as Operating income plus Other income (expense). EBIT is adjusted for special items as determined by management such as the impact of rationalization activities, certain asset impairment charges and gains or losses on disposals of assets.

The following table presents Adjusted EBIT by segment:

Non-GAAP Financial Measures

The Company reviews Adjusted operating income, Adjusted EBIT, Adjusted net income, Adjusted diluted earnings per share and Return on invested capital, all non-GAAP financial measures, in assessing and evaluating the Company's underlying operating performance. These non-GAAP financial measures exclude the impact of special items on the Company's reported financial results. Non-GAAP financial measures should be read in conjunction with the generally accepted accounting principles in the United States ("GAAP") financial measures, as non-GAAP financial measures are a supplement to, and not a replacement for, GAAP financial measures.

The following table presents the reconciliation of both Net income as reported to Adjusted operating income and Adjusted EBIT as well as Diluted earnings per share as reported to Adjusted diluted earnings per share:

(2) Acquisition transaction and integration costs related to the Air Liquide Welding acquisition as discussed in Note 4 to the consolidated financial statements in the three and six months ended June 30, 2018 and 2017, respectively.

(3) Pension settlement charges related to a lump sum pension payment.

(4) Includes the net tax impact of Special items recorded during the respective periods, including the net impact of the U.S. Tax act of \$2,500 in the six months ended June 30, 2018.

The tax effect of Special items impacting pre-tax income was calculated as the pre-tax amount multiplied by the applicable tax rate. The applicable tax rates reflect the taxable jurisdiction and nature of each Special item.

Liquidity and Capital Resources

The Company's cash flow from operations can be cyclical. Operational cash flow is a key driver of liquidity, providing cash and access to capital markets. In assessing liquidity, the Company reviews working capital measurements to define areas for improvement. Management anticipates the Company will be able to satisfy cash requirements for its ongoing businesses for the foreseeable future primarily with cash generated by operations, existing cash balances, borrowings under its existing credit facilities and raising debt in capital markets.

[Table of Contents](#)

The Company continues to expand globally and periodically looks at transactions that would involve significant investments. The Company can fund its global expansion plans with operational cash flow, but a significant acquisition may require access to capital markets, in particular, the long-term debt market, as well as the syndicated bank loan market. The Company's financing strategy is to fund itself at the lowest after-tax cost of funding. Where possible, the Company utilizes operational cash flows and raises capital in the most efficient market, usually the United States, and then lends funds to the specific subsidiary that requires funding. If additional acquisitions providing appropriate financial benefits become available, additional expenditures may be made.

The following table reflects changes in key cash flow measures:

	Six Months Ended June 30,		
	2018	2017	\$ Change
Cash provided by operating activities ⁽¹⁾	\$ 123,558	\$ 151,687	(28,129)
Cash provided by (used by) investing activities ⁽²⁾	15,501	(91,973)	107,474
Capital expenditures	(31,383)	(28,131)	(3,252)
Purchase of marketable securities, net of proceeds	40,066	(64,944)	105,010
Cash used by financing activities ⁽³⁾	(98,673)	(55,767)	(42,906)
Purchase of shares for treasury	(50,232)	(7,748)	(42,484)
Cash dividends paid to shareholders	(51,250)	(46,016)	(5,234)
Increase in Cash and cash equivalents ⁽⁴⁾	30,393	16,556	

- (1) Cash provided by operating activities decreased for the six months ended June 30, 2018, compared with the six months ended June 30, 2017 primarily due to changes in cash flows from operating working capital and hedging activities.
- (2) Cash provided by investing activities increased for the six months ended June 30, 2018, compared with the six months ended June 30, 2017 predominantly due to the proceeds from marketable securities in 2018. The Company currently anticipates capital expenditures of \$60,000 to \$70,000 in 2018. Anticipated capital expenditures include investments for capital maintenance to improve operational effectiveness. Management critically evaluates all proposed capital expenditures and expects each project to increase efficiency, reduce costs, promote business growth or improve the overall safety and environmental conditions of the Company's facilities.
- (3) Cash used by financing activities increased in the six months ended June 30, 2018, compared with the six months ended June 30, 2017 due to higher purchases of common shares for treasury.
- (4) Cash and cash equivalents increased 9.3%, or \$30,393, to \$357,094 during the six months ended June 30, 2018, from \$326,701 as of December 31, 2017. This increase was predominantly due to cash provided by operating activities and proceeds from marketable securities offset by purchases of common shares for treasury and cash dividends paid to shareholders. The increase in Cash and cash equivalents during the six months ended June 30, 2018 compares to an increase of 4.4% during the six months ended June 30, 2017. The increase in 2017 was primarily due to cash provided by operating activities offset by the purchase of marketable securities and cash dividends paid to shareholders. At June 30, 2018, \$277,992 of Cash and cash equivalents was held by international subsidiaries.

The Company's total debt remained consistent as compared to December 31, 2017. Total debt to total invested capital decreased to 42.7% at June 30, 2018 from 43.1% at December 31, 2017.

In July 2018, the Company paid a cash dividend of \$0.39 per share, or \$25,417, to shareholders of record as of June 29, 2018.

Working Capital Ratios

	June 30, 2018	December 31, 2017	June 30, 2017
Average operating working capital to net sales ⁽¹⁾	16.5%	15.9%	16.7%
Days sales in Inventories	91.0	88.9	93.3
Days sales in Accounts receivable	52.2	52.4	49.6
Average days in Trade accounts payable	53.4	54.5	48.8

- (1) Average operating working capital to net sales is defined as the sum of Accounts receivable and Inventories less Trade accounts payable as of period end divided by annualized rolling three months of Net sales.

Return on Invested Capital

The Company reviews return on invested capital ("ROIC") in assessing and evaluating the Company's underlying operating performance. ROIC is a non-GAAP financial measure that the Company believes is a meaningful metric to investors in evaluating the Company's financial performance and may be different than the method used by other companies to calculate ROIC. ROIC is defined as rolling 12 months of Adjusted net income excluding tax-effected interest income and expense divided by invested capital. Invested capital is defined as total debt, which includes Short-term debt and Long-term debt, less current portions, plus Total equity.

ROIC for the twelve months ended June 30, 2018 and 2017 were as follows:

	Twelve Months Ended June 30,	
	2018	2017
Net income	\$ 259,995	\$ 230,640
Rationalization and asset impairment charges	28,307	—

Total debt	702,083	706,685
Total equity	943,508	851,776
Invested capital	\$ 1,645,591	\$ 1,558,461
Return on invested capital	18.0%	16.0%

(1) Includes the net tax impact of Special items recorded during the respective periods, including the net impact of the U.S. Tax act of \$31,116 in the twelve months ended June 30, 2018.

The tax effect of Special items impacting pre-tax income was calculated as the pre-tax amount multiplied by the applicable tax rate. The applicable tax rates reflect the taxable jurisdiction and nature of each Special item.

New Accounting Pronouncements

Refer to Note 1 to the consolidated financial statements for a discussion of new accounting pronouncements.

Acquisitions

Refer to Note 4 to the consolidated financial statements for a discussion of the Company's recent acquisitions.

Debt

The Company has a line of credit totaling \$400,000 through the Amended and Restated Credit Agreement (the "Credit Agreement"). The Credit Agreement has a five-year term and may be increased, subject to certain conditions, by an additional amount up to \$100,000. The interest rate on borrowings is based on either the London Inter-Bank Offered Rate ("LIBOR") or the prime rate, plus a spread based on the Company's leverage ratio, at the Company's election. The Company amended and restated the Credit Agreement on June 30, 2017, extending the maturity of the line of credit to June 30, 2022. The Credit Agreement contains customary affirmative, negative and financial covenants for credit facilities of this type, including

[Table of Contents](#)

limitations on the Company and its subsidiaries with respect to liens, investments, distributions, mergers and acquisitions, dispositions of assets, transactions with affiliates and a fixed charges coverage ratio and total leverage ratio. As of June 30, 2018, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement.

Senior Unsecured Notes

On April 1, 2015 and October 20, 2016, the Company entered into separate Note Purchase Agreements pursuant to which it issued senior unsecured notes (the "Notes") through a private placement. The 2015 Notes and 2016 Notes each have an aggregate principal amount of \$350,000, comprised of four different series ranging from \$50,000 to \$100,000, with maturity dates ranging from August 20, 2025 through April 1, 2045, and interest rates ranging from 2.75% and 4.02%. Interest on the Notes is paid semi-annually. The Company's total weighted average effective interest rate and weighted average initial tenure of the Notes is 3.3% and 18 years, respectively. The proceeds of the Notes were used for general corporate purposes. The Notes contain certain affirmative and negative covenants. As of June 30, 2018, the Company was in compliance with all of its debt covenants relating to the Notes.

Forward-looking Statements

The Company's expectations and beliefs concerning the future contained in this report are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect management's current expectations and involve a number of risks and uncertainties. Forward-looking statements generally can be identified by the use of words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "forecast," "guidance" or words of similar meaning. Actual results may differ materially from such statements due to a variety of factors that could adversely affect the Company's operating results. The factors include, but are not limited to: general economic and market conditions; the effectiveness of operating initiatives; completion of planned divestitures; interest rates; disruptions, uncertainty or volatility in the credit markets that may limit our access to capital; currency exchange rates and devaluations; adverse outcome of pending or potential litigation; actual costs of the Company's rationalization plans; possible acquisitions, including the Company's ability to successfully integrate the Air Liquide Welding business acquisition; market risks and price fluctuations related to the purchase of commodities and energy; global regulatory complexity; the effects of changes in tax law; tariff rates in the countries where the Company conducts business; and the possible effects of events beyond our control, such as political unrest, acts of terror and natural disasters, on the Company or its customers, suppliers and the economy in general. For additional discussion, see "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company's exposure to market risk since December 31, 2017. See "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of June 30, 2018.

Changes in Internal Control Over Financial Reporting

Beginning January 1, 2018, the Company implemented ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)". Although the new revenue standard is expected to have an immaterial impact on the consolidated financial statements on an ongoing basis, the Company implemented changes to processes related to revenue recognition and associated control activities.

There have been no other changes in the Company's internal control over financial reporting during the quarter ended June 30, 2018 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

The Company is subject, from time to time, to a variety of civil and administrative proceedings arising out of its normal operations, including, without limitation, product liability claims, regulatory claims and health, safety and environmental claims. Among such proceedings are the cases described below.

As of June 30, 2018, the Company was a co-defendant in cases alleging asbestos-induced illness involving claims by approximately 3,507 plaintiffs, which is a net decrease of 19 claims from those previously reported. In each instance, the Company is one of a large number of defendants. The asbestos claimants seek compensatory and punitive damages, in most cases for unspecified sums. Since January 1, 1995, the Company has been a co-defendant in other similar cases that have been resolved as follows: 54,869 of those claims were dismissed, 23 were tried to defense verdicts, 7 were tried to plaintiff verdicts (1 of which was appealed and eventually resolved for an immaterial amount), 1 was resolved by agreement for an immaterial amount and 794 were decided in favor of the Company following summary judgment motions.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, the reader should carefully consider the factors discussed in “Item 1A. Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017, which could materially affect the Company’s business, financial condition or future results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer purchases of its common shares during the second quarter of 2018 were as follows:

Period	Total Number of Shares Repurchased	Average Price Paid Per Share	Total Number of Shares Repurchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs (2)
April 1 - 30, 2018	96,169 ⁽¹⁾	\$ 89.43	95,925	8,178,663
May 1 - 31, 2018	152,146 ⁽¹⁾	87.46	152,044	8,026,619
June 1 - 30, 2018	149,181	91.17	149,181	7,877,438
Total	397,496	89.33	397,150	

(1) The above share repurchases include the surrender of the Company's common shares in connection with the vesting of restricted awards.

(2) On April 20, 2016, the Company announced that the Board of Directors authorized a new share repurchase program, which increased the total number of the Company's common shares authorized to be repurchased to 55 million shares. Total shares purchased through the share repurchase programs were 47.1 million shares at a total cost of \$1.7 billion for a weighted average cost of \$36.72 per share through June 30, 2018.

 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
